INTERNATIONAL SEARCH REPORT

International application No. PCT/US98/17232

Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)
This international report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:
2. Claims Nos.: because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)
This International Searching Authority found multiple inventions in this international application, as follows:
1. As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. X No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.: 1-25
Remark on Protest The additional search fees were accompanied by the applicant's protest. No protest accompanied the payment of additional search fees.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

In the sal application N.
PCT/0598/17232

I.	Basis	s f the report			
1.	With	regard to the elements of the international application:*			
	\boxtimes	the international application as originally filed.			
	\boxtimes	the description:			
		pages 1-73 as originally filed			
		pages NONE, filed with the demand			
		pages NONE , filed with the letter of			
	\boxtimes	the claims:			
		pages 74-88 , as originally filed			
		pages NONE, as amended (together with any statement) under Article 19 pages NONE, filed with the demand			
		pages NONE , filed with the letter of .			
	\square	the drawings:			
		pages NONE , as originally filed			
		pages NONE , filed with the demand			
		pages NONE , filed with the letter of			
	\boxtimes	the sequence listing part of the description:			
		pages NONE , as originally filed			
		pages NONE, filed with the demand			
_		pages NONE , filed with the letter of			
2.		regard to the language, all the elements marked above were available or furnished to this Authority in the			
		page in which the international application was filed, unless otherwise indicated under this item. e elements were available or furnished to this Authority in the following language English which is:			
		the language of a translation furnished for the purposes of international search (under Rule23.1(b)).			
	\boxtimes	the language of publication of the international application (under Rule 48.3(b)).			
		the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).			
3		regard to any nucleotide and/or amino acid sequence disclosed in the international application, the			
٥.		national preliminary examination was carried out on the basis of the sequence listing:			
		contained in the international application in printed form.			
	\square	filed together with the international application in computer readable form.			
		furnished subsequently to this Authority in written form.			
	Ш	furnished subsequently to this Authority in computer readable form.			
		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.			
		The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.			
4.	\boxtimes	The amendments have resulted in the cancellation of:			
		the description, pages NONE			
		the claims, Nos. NONE			
		the drawings, sheets/fig NONE			
5.		This report has been established as if (some of) the amendments had not been made, since they have been considered to go			
		beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**			
thi.	* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17). ** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.				
		i de la companya de			

III. N n-establishment of pinion with regard to novelty, inventive step and industrial applicability			
1. The question whether the claimed invention appears to be novel, to involve an inventive step (to be non-obvious), or to be industrially applicable have not been and will not be examined in respect of:			
the entire international application,			
claims Nos. 11-14, 16-24 and 26-32			
because:			
the said international application, or the said claim Nos relate to the following subject matter which does not require international preliminary examination (specify):			
the description, claims or drawings (indicate particular elements below) or said claims Nos. 11-14 and 16-24 are so unclear that no meaningful opinion could be formed (specify):			
Claims 11-14 and 16-24 are improper multiple dependent claims under PCT Rule 6.4(a).			
the claims, or said claims Nos are so inadequately supported by the description that no meaningful opinion could be formed.			
no international search report has been established for said claims Nos. 26-32			
2. A meaningful international preliminary examination cannot be carried out due to the failure of the nucleotide and/or amino acid sequence listing to comply with the standard provided for in Annex C of the Administrative Instructions:			
the written form has not been furnished or does not comply with the standard.			
the computer readable form has not been furnished or does not comply with the standard.			

V.	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability;
	citations and explanations supporting such statement

1. STATEMENT			
Novelty (N)		8-10 and 15 1-7 and 25	YES NO
Inventive Step (IS)	Claims Claims	15 1-10 and 25	YES NO
Industrial Applicability (IA)		1-10, 15 and 25 NONE	YES NO

2. CITATIONS AND EXPLANATIONS (Rule 70.7)

Claims 1, 6, 7 and 25 lack novelty under PCT Article 33(2) as being anticipated by Collins et al. (US Patent Number 5,441,950). Collins teaches compounds of the instant invention where A is dibenzoxazepine, R is hydrogen, B is hydrogen or methyl and D is 4-pyridinylmethylamino, 2-pyridinylethylamino, 4-pyridinylamino or 2-methoxymethylamino. See examples 5-8, 15, 16, 35-38 and 41-42.

Claims 1, 6, 7 and 25 lack novelty under PCT Article 33(2) as being anticipated by Chandrakumar et al. (US Patent Number 5,449,675). Chandrakumar teaches compounds of the instant invention where A is dibenzoxazepine, R is hydrogen, B is hydrogen or methyl and D is 4-pyridinylmethylamino, 2-pyridinylethylamino, 4-pyridinylamino or 2-methoxymethylamino. See examples 5-8, 15, 16, 35-38 and 41-42.

Claims 1, 6-10 and 25 lack an inventive step under PCT Article 33(3) as being obvious over Chandrakumar et al. (US Patent Number 5,449,675). The generic structure of U.S. '675 encompasses the instantly claimed compounds (see Formula I, column 2) and by the same process (see column 11) as claimed herein. Examples 5-8, 15, 16, 35-38 and 41-42 differ only in the nature of the X, Y, Z, R, W, D, E, m, p, q and n substituents.

Claims 1-7 and 25 lack novelty under PCT Article 33(2) as being anticipated by BEECHAM GROUP P.L.C., EP 0 411 751. BEECHAM GROUP P.L.C. teaches the compounds of the instant invention where A is benzothiazepine-ethyl, R is hydrogen, B is phenylmethyl and D is -NH-CH(isobutyl)-C(=O)-NH-CH(cyclohexylmethyl)-CH(OH)-CH2-C(=O)-NH-(CH2)3-imidazole. See examples E18, E19a and E19b.

Claims 1-10 and 25 lack an inventive step under PCT Article 33(3) as being obvious over BEECHAM GROUP P.L.C., EP 0 411 751. The generic structure of EP '751 encompasses the instantly claimed compounds (see Formula I, page 3) and by the same process (see pages 8-9) as claimed herein. Examples E18, E19a and E19b differ only in the nature of the Z1, Z2, Z3, Z4, Z5, Ra, Rb, E, R1, R2, R3, p, Rz, q, A, s and R4 substituents.

Claim 15 meets the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the species claimed herein.

Claims 1-10 and 25 meet the criteria set out in PCT Article 33(4), for industrial applicability.

INTERNATIONAL SEARCH REPORT

International application No. PCT/US98/17232

A. CLASSIFICATION OF SUBJECT MATTER IPC(6) :A61K 31/55; C07D 267/14, 267/16, 281/10 US CL :514/211; 540/488, 490, 491 According to International Patent Classification (IPC) or to both national classification and IPC
